

SHOW WINDOW FOR WORLD ON WHEELS!

854 More than 600 new automobiles representing 68 individual producers from the nine major automobile manufacturing nations! An international show at New York's vast Coliseum. From station wagon which can "go anywhere" to foreign economy cars which are super de luxe additions to the 1959 American import market. Low upkeep, high gasoline mileage - and added features, such as reclining seats.

Japan's contribution to the showing of best examples of new car styling, engineering and craftsmanship.

The largest group of cars at the show this year comes from Britain...a wider range of sports, economy and luxury cars, accenting the new influence of styling in British cars.

Yes, it's bound to be the prettiest year for the automobile industry. Beauty that runs the full gamut of spectacular automobile achievement.
