**ACROBATIC DRIVING ON THE CHAMPS ELYSEES**  
**Positive developed : 59 meters - 197 feet**  
**competition unknown.**

A specialist of devil-driving, Jean SUDRY, world champion in two-wheels driving in a .. real car, made a demonstration of his skill yesterday morning, - in the very early morning of course when traffic is nearly nil - in a SIMCA ARIANE car....

This amazing driver made all sorts of demonstrations, including the wheel driving on ... half a kilometer, acceleration, slowing, turns, slidings etc... a hair-raising demonstration in the heart of Paris.

The object was shooting of part of a film for the Organization of Road Security... . What a driver must not do perhaps!

**A dramatic exhibition by a daredevil!**
