

58/72.

HUGH AND NYE IN MOSCOW.

To entertain Hugh Gaitakell and Aneurin Bevan the Russians showed all their famous hospitality. Unless they dislike visitors they can't do enough for them; and as the Soviet Achievements Exhibition is the big Moscow attraction at the moment, Hugh and Nye were conducted with full honours, due to Politicians whom an election might put into power. Russians are justifiably proud of their Sputriks and Rockets, a field in which even Mr. Nixon conceded that they lead the world. How long they will hold that lead remains to be seen. Outer space has already been tried on the dog. Which country will be the first to send a man up there? The two statesmen much enjoyed their stay in Russia.
