

The Czechoslovak Week in News No. 43/59 - The aviation modeling. This is a sport of clever mind and clever hands, and has hundreds of enthusiastic fans. And is joyful, that in the international competitions we have stood in this sport very often among the victors. At the championship of the Republic of models in Prague have the racers reviewed more than hundred of flying models. The biggest interest of the spectators has arisen the model of the jet plane. It has flown in a speed of over two hundred kilometres within one hour. In the category of acrobatic models is being valued mostly the shape and preciseness of the flight. The victor has become the world champion Jozef Gabriš from Bratislava.
