LATEST FASHION ... for pets

Exclusive

35 mm. developed positive: 36 meters - 125 ft

One of the young "Couturiers" in Paris, has now added to his trade, by designing, just as thoroughly and seriously as for his usual customers, the latest styles for their pet dogs... And it certainly was a good idea as you can see by the number of Ladies waiting in his halls their turn to see the "Doggy collection".

Everything is very seriously done. Measurements must be exact to fit doggy... and the material exactly matching Milady's coat...

A suit for every hour... fur, velvets, any material which is good for Madam is also fit for her dog!

And for evening or formal occasions, Jacques Heduy has designed for the Maharane of Baroda's puddle this red velved tail coat trimmed with black fur... and buttons in the right place... One even needs a "Model" to try on the new designs.

Well, even if the pets don't look too happy with their attire, their mistresses certainly are very proud.
