

VOLCANO ERUPTS AGAIN.

Nature on the rampage provided the spectacle of all time for winter tourists in Hawaii. For the third time in a few days the Volcano Kilauea Iki burst forth in molten splendour. On the safe side, natives and visitors thrilled to the amazing display. Trees were singed, but the lava caused no major damage. It was flung twelve-hundred feet high before falling into a river of fire. The volcano had been inactive for so many years that its new-found ferocity took Hawaii by surprise.

Kilauea Iki put on a fireworks display far beyond man's power to equal,
