European Fancy Skating in Garmisch

1. Pair Skating

The Olympic Ice Stadium at Garmisch-Partenkirchen was the scene of the European ice-skating championships 1960.

17year old Marika Kilius and her 18year old partner Hans-Jürgen-Bäumler successfully defended the title which they had won last year at Davos.

The decision remained in the balance until the very last moment. Although their free-style exercise was not so spirited as that of their Russian rivals. Shuk, the title-defenders successfully combined harmony of movement and musicality of performance with strictly sportive elements.

2. Single(Men)

20 ace skaters competed for Europeans' laurels. But it was obvious from the start: 20 year old Alain Giletti was out to win his fourth European championship. In absence of Carel Divin (CSR) the titleholder - his chance of winning the title again was unchallenged.
