March 15, 1960

### Gymnastics

60 German gymnastic aces from all parts of the Federal Republic competed for the national title in Vavarian Ulm.

It was a tough competition between the titleholder Philipp Fürst (tall and dark-haired) and 25-year old Günter Lyhs.

Lyhs reaped the fruits of his hard and systematic training. The only 1,60m high gymnast won the Olympic Exercise in addition to five individual championships. The result of Ulm was a sensation for the west German athletes! - The hard training continues with the Summer Olympic Games looming on the horizon.
