Weightlifting

The strong draymen of Munich's breweries wanted to know who is the strongest Bavarian barrel-man. So they started a contest with their well-known daily chores. These barrels full of strong beer are really only for the strong. - These barrels became the more weighty the later it was. And here is the strongest connoisseur of Munich strong beer! Wilhelm Heinz. He handled 88 kilograms of the costly liquid.

Handwritten scribbles and symbols, possibly including the number 88.
