The competitors fire 15 counting rounds (highest possible score 75) at 900 yards, and the score is added to the score made yesterday in the second stage. A further 15 counting rounds are fired at 1,000 yards and at this distance blackboards behind each butt of 10 targets will show the detailed scores of the 20 competitors firing on them.

In the central enclosure the order of merit of the leading competitors will be shown after the 900 yards shooting is finished and the position of the leading competitors will also be shown after they have fired 5 shots at 1,000 yards and again after they have fired 10 shots, and again when the final totals are known.

Her Majesty the Queen's Prize
has been won by
Sergt WESTLING of CANADA.
