AIR EXHIBITION

The first Spanish air flight took off from Barcelona in 1910 and to commemorate it an International Air Festival is celebrated in the Airport of Muntadas, where the jets of the VI US Fleet perform some daring evolutions during which one of them passed the sound barrier .

Instructors from the Military Paratroopers School of Alcantarrilla and a group of the Paratrooper Squadron of Alcala dropped from great heights.

Jose Luis Aresti, international ace, executes several air acrobatics with perfect dominion over the plane in spite of the adverse wind.

One of the most attractive numbers of the personal exhibition of Gil Delamare, standing on the wings.

With her husband, Colette Duval drops from 3000 meters and opens her parachute only when she is 300 meters distant from the ground.

The Black Arrows from the British Royal Air Force use for the last time in public the Hawker-Hunters which are soon to be replaced by a new prototype.

The acrobatic patrol "Cetti Tonatti" of the Italian Air Force with their jets F-84.... they trace figures and leave a trail in their wake.
