CINCSOUND REVIEW, 1541:

IT'S A RIOT!

Uni students' rip-roaring Commem Day.

STUDENTS:

At Sydney University, students get ready for their annual Commem Day procession... and there are plenty of police, under Superintendent Chaseling, to make sure the floats are...well, fit for public consumption! And after the police have given the "all Clear", the big parade of floats heads for the city.

FLOAT PAST:

Most of the floats have topical themes ... everything from the Eichmann trial to Fidel Castro and I.V.M. and there's a huge crowd to see them go past.

RUNNING: There are student marching girls at full gallop, and

JENSEN: Lord Mayor Jensen enters into the spirit of fun as he

UPPER HOUSE: watches from the Town Hall steps. New South Wales' latest referendum gets special prominence, too!

HILA: Students are all over the city, and in every type of costume ... but police object to the banner this "haka" group carries... and away it goes in the strong arm of the law!

Generally, the pranks are in good taste, and there's no unpleasantness. The students raise money for the Aboriginal scholarship scheme... collecting well over three thousand pounds in the city.

MIS GROUND: After the thirty-three floats have gone past there are more diversions... such as the clean up the city campaign with scores of students scrubbing the Town Hall steps with toothbrushes!

And when they have been cleaned

N.S. STEPS: They're still in a mess!

FLOUR: Meanwhile, back at the ranch... I mean, back at the University... there's the start of the traditional inter-faculty flour-bomb fight... so stand back as engineers and medical students let fly!

CU STORM: The battlefield soon seems to be covered with fog... but it's only a flour mist, so thick it lies on the ground like snow. That's handy, because you can pick it up and throw it right back.

WITH HOSE: To add to the fun some of the students grab a fire hose, and if you think that flour and water is going to provide a real "pasteing", you're dead right. Some try to run the gauntlet in cars, but the jet of water from that hose is going EVERYWHERE! Cincsound's cameraman is right in the line of fire, too... DUCK, everybody!
