Dear Sir,

Further to the phone conversation I had with your Secretary this morning, please find enclosed a copy of our Brochure, which I trust will contain most of the information you wish to know.

Now I suggest that your cameraman be at the Bandstand on Swanage seafront at 9 AM. The reason I mention this is twofold; firstly we hold our briefing and ballot for diving locations there, which may provide a suitable "opening" for the film and secondly if he accompanies me to Seacombe I can arrange transport down to the sea for his equipment. If he arrives at Seacombe at a later hour he will have to park his car at the farm at the top, which necessitates quite a considerable walk. As it is, we have permission to take one vehicle only across his land to convey any "heavy" gear.

Thank you for any coverage you can possibly give to this event and please don't hesitate to contact me should any more queries arise.

Yours Sincerely

Philip Smith
