

DIOR HATS FOR SPRING

Nobody's thinking of Christmas at Dolores House. They already have Spring in mind. So Dior looks ahead and makes suggestions. To women, they are almost royal commands. Unlike mere men, they know the yearning for a hat that comes when winter's gone. "Goodwood" is the name for a Sapphire beku picture hat.

A Visor cloche, in white, draped in Hunting Pink.

Another one, Genevieve, covered in shot muslin.

This little lot, all for Ascot. How do we know the girls are keen racegoers? Simple. The binoculars. Nothing's been doped. Tip for Ascot ? Dior, each way.
