

ITALY: FASHIONS FOR BEACH.

Italian fashion houses got in early with suggestions for everything, from the feet up, for next summer's holiday-wear. On hot Mediterranean beaches a girl can relax and be very smart at the same time. And as the men have to foot the fashion bill they're entitled to watch the show. At least, that's one reason they were there.

We've come a long way from the old-fashioned beach-wrap. Glamour is the order of the day.

This year, plenty of choice for the peaches on the beach.
