PRINCESS MEETS "YOUNG ONES"

Presented to Princess Margaret was Cliff Richard's mother. What an evening it was for the 700 teenagers jamming the East End's '59 Club; the Princess, Cliff and The Shadows. Princess Margaret was recovering from Laryngitis, Cliff was still suffering from it, but of course, The Show Goes On.

Cliff's doctor said he could fulfil the engagement if he didn't sing too much. Cliff simply had to give them the Young Ones.

Cliff deserved the applause. Next item, a big favourite with everybody there, Apache, redendered by the popular group, The Shadows.
