

2-8 FEB 1930

OPEN ICE SKATING CHAMPIONSHIP.

Whenever a frost comes to Britain... Officials of the Skating Association rush round... and arrange things in double quick time. They know that if they don't get a move on.... the best thing they can hope for is a swimming championship. But this year the frost holds.....and Britain's fastest skaters are on the ice.

They run the open championship on the knockout system.... in a series of heats..... and when the final is run off.... the winner is C.W.HORN.... who gets a cup .....a cheque... and the title of open Mile and a half Champion.
