MELBOURNE CUP.

Summer time in Australia.... and the Hooves are flying. They're in line like a light horse squadron for the Melbourne Cup.

In our last issue we showed you a little Australian Horse named RIVETTE.... winning the CAULFIELD CUP. She's here again .... but just at the moment she's hugging the rails... and hanging back while FEMINIST takes the lead. And they're getting into top gear.

As they come to the nine furlong post.... and start the long haul round the back stretch ....GILLTOWN takes the lead from FEMINIST....

and Rivette is still hugging the rail.... and still hanging back.

And the turn for home.... into the straight with throttles wide open ~~RIVETTE~~ **BEAUVITE** IS IN FRONT..... and RIVETTE has moved round to the outside of the leading bunch. You want to watch RIVETTE on the outside of the first four ....you can see RIVETTE now.... flying to the front with a paralysing burst of speed.

With a furlong to go RIVETTE is in front ....fighting it out with ORTELLE STAR. But as that horse hasn't got a rider ....its RIVETTE'S race anyway.

Twenty six horses started....a little mare beat them all. Oh! well...

Ladies first!
