THE ALTMARK IN JOSING FIORD.

The Hell ship - - ALTMARK - - lies in a Norwegian Fiord.....  
No more, we hope, will she serve as an aid to Nazi frightfulness....  
For her present situation she has to thank the vigilance of the  
Royal Air Force, and the determination of the British Navy.

Britain just wasn't standing for the further ill-treatment  
of British Seamen..... The story of ALTMARK'S dash into the Fiord,  
(with British Warships on her tail) and of H.M.S. Cossack's magnificent  
rescue, has already been told... .. So, we'll leave the ALTMARK  
where she is, unhonoured and unsung.
