**R.A.F.'S GREATEST BOMBING RAID.**

With swift decision, the R.A.F. Replied to the NAZI Raid on the Orkneys, when the first civilian was killed on British Soil. A large number of R.A.F. Bombers set out for the fortified German Island of Sylt, and bombarded seaplane bases, ammunition dumps and harbours up and down the island, continuously for six hours.

List, of which this is an aerial photo, had its share! as well as the Hindenburg Dam. Britain has shown her determination, to answer Nazi raids in a language the Boche will understand!
