MACHINE GUNS FIRE SHELLS.

SOME OF THE R.A.F'S FASTEST FIGHTERS, ARE ZOOMING, IN FLAT OUT PRACTICE DIVES, OVER THE BRITISH ANTI AIRCRAFT POSTS, IN FRANCE. AND OUR BOYS TAKE THE OPPORTUNITY, TO LEARN THE SIGHTING OF A NEW TYPE OF GUN.....THAT FIRES FULL SIZE EXPLOSIVE SHELLS, AT THE RATE OF A HUNDRED AND TWENTY A MINUTE (AS FAST AS A MACHINE GUN) WATCH HOW SUPERBLY EASILY, IT CAN BE MANOEUVRED AND AIMED. BUT ALL SIGHTING AND NO FIRING, IS PRETTY DULL WORK.

ORIGINALLY THIS GUN WAS DESIGNED, IN THE GREAT BOFORS, ARMAMENTS WORKS, IN SWEDEN. NOW, IT'S BEING MASS PRODUCED, IN BRITISH FACTORIES. SO A SLEEVE TARGE IS TOWED PAST, AND THE BOFORS GUNS WAKE TO LIFE. THE GUNS CREWS STAND BY. THE SHELLS ARE IN THEIR RACKS, READY TO LOAD. LISTEN TO THE AMAZING BARK OF THESE GIANT MACHINE GUNS: THAT FIRE EXPLOSIVE SHELLS, AT TWO A SECOND.

.....
