

R.A.F. 'S GOOD BAG.

Four British PilotsBetween them they five shot down
five... maybe seven Nazi planes in one day.

So there's a telegram from the Commander in Chief "Congratulations
on good days sport".

Here are the faces of the young men, who are daily showing
our superiority in the air. Here is Cobber.... 21 year old
ace from New Zealand..... Just convalescing from being shot down a ~~xxxx~~
second time. But the Maori charm which he always wears saved him
again. And now he holds the record.... for shooting down
five Nazis single handed.
