

A.I.F. IN PALESTINE.

The Holy Land, mystic country of the East, where sleep
oh! they're awake. And the sun chases the shadows off the
desert to find that the Australians are here, as guardians of a vital post
of Empire.

Yes Mother.... They have every home comfort.

Health is closely guarded. Here's something they can't get at home,
open air dentistry.

What's the matter, have you got a toothache?

We'll fix it.

PALESTINE..... land of contrasts, where modern transport hardly
fits.

The ancient minarets of Jerusalem raise their peaceful heads,
as they have for hundreds of years. Some day that peace may be
destroyed by the guns of war, but if it is,
The Australian are here.
