

R.A.F. ON THE WESTERN FRONT.

The mighty battle of the Bulge^x has brought the R.A.F. into unceasing activity. Here is another enemy raid over Northern France. Our Hurricanes and Spitfires go up to meet the Messerschmitts and Heinkels. Here are the first pictures of hourly dog fights high in the sky. The Nazis wreak destruction as usual..... but here is our answer. .. a Messerschmitt struck by our fighters..... then twisting down to its end.

This is a story that is being repeated every hour.

All that is left of another ~~member~~ member of the proud German Air Force. Often our men are out numbered ten to one... but with superb courage they carry on. In the magnitude of this crisis..... in the face of advancing destruction..... we cannot do better than quote the words of the French Prime Minister.

"It is not for the first time that France faces grave moments. She faced grave and critical situations during the last war... she survived all difficulties... and won. France will be worthy of her Allies".

Let us be worthy of France. Let us join her in courage and determination.
