ALL FOR DEFENCE.

Dublin.... and there are more people in the streets than the city has ever seen before. Its National Defence Day, and Prime Minister De Valera is accompanied by his Political opponents... Mr. Cosgrave and Mr. Norton. This is the symbol of Eire's unity....

as she faces the danger of a gression. Britain and Eire may not always have seen eye to eye in the past, but today all that is forgotten in the common danger. Mr. De Valera calls on the manhood of Eire to join in her defence.

Mr. Cosgrave says " we have got to stand united for the lives of our people... and the liberties they enjoy"

And Mr.Norton the labour leader says "We wanted peace with all humanity, but in this hour of crisis.... we must join in defence". If Hitler tries to strike that way....he'll find Eire ready.
