FIENESS WINS.

Now they're not even waiting to be called up.

The youth of Britain is forming a broomstick army....

to go train and get fit for when their turn comes.

Some of London's well known Football grounds....are opened on

Saturday afternoons. The trainers are there, the room is there....

the spirit is there. And the boys are rolling up in their hundreds.

At every soccer ground that our cameraman visited, its the same

story... hundreds of youngsters willing to give up saturday

afternoons and get down to the job.

It looks as if some of them need it. ... Straighten up there!

They feel they're doing a job of work for Britain....

and just at the moment....That's the grandest feeling of all.

.....

In Manchester.... its fitness that brings out the crowds....
to see world's title holder Sydney Wooderson... try to beat
his own record for the thousand yards. Wooderson's record is
two minutes ten seconds.

After doing superbly for three quarters of the distance... he has
to run the last two hundred and fifty yards un-paced.... and he misses
the record by four and a half seconds. Hard luck Sydney....
but thanks for giving a lead to the nation...
in keeping fit.
