CONVOY ATTACKED IN THE CHANNEL.

Convoys around our coasts are continually attracting the attention of Nazi Bombers - - and they're here!

Anti aircraft guns go into action. As the R.A.F. boys say "It's pretty hot upstairs".

Dive-bombers release their cargoes of death, and all hell is let loose. But their aim is bad - they only make a big splash.

Now here come the spitfires ... the bull dog's teeth are bared!

The Spitfires sail in - - each with eight guns blazing - - and the Nazis streak for home. Another raid foiled by the greatest airmen in the world - - the Royal Air Force!
