AIR ATTACK ON DOVER HARBOUR.

Now released by the Censor, these are vivid pictures of the aerial attack on Dover Harbour, when a flight of Nazi Bombers and Fighters make another of their fruitless raids.

Harrassed by our Air Defences and gun fire, the Nazis Jettison rather than aim their bombs. In half an hour 10 Junker bombers and 7 Messerschmitt fighters are brought down while the remainder scuttle off home.

Dover Harbour after the raid looks like Dover Harbour before the raid. The old place hasn't changed a bit.
