

**HURRICANES TO SMITE ITALIANS.**

It's migrating Season in South Africa - for Birds of War.  
 More Hurricanes prepare to fly North, and mechanics  
 give a final check-up to the details that make for safe  
 aviation. It's no use waiting till you're thousands of  
 feet up before you discover that something needs tightening.....  
 The South African Air Force has already a brave record, and these  
 fine planes with their fine pilots will soon be adding to it.  
 They're going to put a stop to all Caproni caprices. More  
 Hurricanes for the Heavens, and a blizzard for the Wops!

All set, and away they go. As they take the air we know  
 they are on their way to VICTORY.
