PHYSICAL EDUCATION

The famous gym team of Springfield College comes out to play and so these lads know the works with the jerks. Physical training forms a big part of their course and they jump to it with a will. Masculine grace in muscular movements. The high spot of their exhibition are these studies in bronze, depicting American youth on the playing field. Their burnished limbs make a spectacular tableau as they range from footer to fencing, wrestling, boxing and some moving studies of some modern gladiators. To the gods of physical fitness - hail!
