CANADA'S GREAT WAR EFFORT.

His Excellency, The Earl of Athlone, Governor General of Canada inspects the first line of the Dominion's great war effort. From Coast to Coast Munition factories are ceaselessly engaged in the production of the sinews of war. In this great plant, skilled workmen are manufacturing shell casings.

Armament works are not the places for idle chatter. Careless talk is as dangerous as a spark in a powder factory. One careless word and a great munitions works like this might be wrecked. Day in and day out Canada is turning out the bitter pills of disillusionment for that silly kittle runt Hitler. The more of these we get the sooner we'll smear out these Nazi thugs and get back to normal with onions and lemons and things.
