

MR. MENZIES AT OLD TRAFFORD.

During his visit to Manchester, Australia's Prime Minister can't resist going to Old Trafford to see how the Test Cricket Pitch looks. He has his cine-camera with him to photograph the patch on the wicket caused by a bomb. The state of the Pavilion leaves Mr. Menzies wondering if it was Hitler or Larwood who did it. After ~~autographing~~ autographing an incendiary bomb, the groundsman solemnly presents it as a gift to The Melbourne C.C. from the Lancashire Club.

Its a different kind of Test this year - England and Australia team together, and they're both going to win.
