LORD HALIFAX VISITS FAMOUS TEA CAR

Lord Halifax, our Ambassador in Washington, meets the bomb scarred "Iron Duke" -- famous tea car just returned to U.S.A. from the Battle of Britain. The Canteen begins its American tour for British War Relief by serving Lord Halifax a "cupper". He seems to enjoy it as much as the countless soldiers and civilians it refueled overseas. Lord Halifax is one diplomat who prefers a tin hat to a high hat. But it's not his size, so he gives it back to the "Iron Duke" -- a reminder that the car was under fire 33 times.
