AXIS CREWS SCUTTLE MORE SHIPS.

Following upon the seizure of Axis ships in U.S.A., to prevent further sabotage, come these pictures from Costa Rica. Obviously under orders from Rome and Berlin, the crews of the German Freighter EISENBACH and the Italian motor-liner FELLA fire-scuttled their ships. The first result was the arrest of the Captains and crews. They are to be held on charges of arson, so instead of mere internment, they face the possibility of a long spell in jail. Some may think even that's too good for them, we agree.
