

PICTURED PARAGRAPHS FROM THE WORLDS NEWS.

Polish Ship.

A Polish ship which escaped the Nazis is now helping to carry some of the multitude of Italian Prisoners taken in Libya to a British controlled port, enroute for internment. One can't help wondering what Musso's mags think of it all...(if they can think for themselves after all these years under old Bad-news-Benito). So take 'em away driver.... there's another story coming up.

A.T.S. GIRLS.

The Klaxon sounds the alert and the girls come a'running. For the first time in British history, women are to go into action against the enemy. (But ~~and~~ not for the first time are they wearing the trousers). Shoot girls, Jerry's upstairs.

Co-operating closely with the gunners, they handle the predictors which work out the range and height of enemy aircraft. These A.T.S. girls do their arithmetic in the thick of any blitz.

"NO STRIKE "
AGREEMENT IN
U.S."

Co-operation is the keynote of the American Aircraft Factory too. Employees and Management mutually agree on Industrial Peace for the duration.

That's the spirit that wins wars.
