QUEEN MARY VISITS WOUNDED.

.....

Queen Mary comes to a convalescent home in the West Country on a visit to soldiers recovering from illness or accident.

Sgt. Page was one of the bodyguards to King George the Fifth and the Queen at the Delhi Darbar in 1911.

Her Majesty's visit was greatly appreciated by the patients.

The passing of time can never dim our affection for Queen Mary. In this second world-war, welfare of the sick and injured is ever in her mind.
