

PATHE GAZETTE: 41/43. (DUBLIN)

BIG MELBOURNE BLAZE

Flames break through a Melbourne rubber works and attack large stocks of tyres piled up for reconditioning. The choking, swirling smoke makes the blaze as tough to fight as a gas attack, and the firemen have to work close up to it to prevent it spreading to adjoining timber yard. What a bonfire that would make. Thousands of pounds damage but it might have been thousands more.
