

PRIME MINISTER & KING PETER

Mr. Churchill wants to see just how strong are Britain's Coast Defences. So, accompanied by The young King Peter of Yugo-Slavia, he visits our coastal front lanes.....

In one of the Control Towers the visitors see, and hear, the big guns a-poppin!

And if you could have the privilege of seeing the effects of such a salvo, you'd want to do just what Mr. Churchill does, and shoot off a packet for yourself!

As thrilling as pulling a tram communication cord!

Mr. Churchill is satisfied that our defences would knock the HIT out of HITLER!
