QUADS RETURN HOME

It's welcome home for the quadruplets of Litchfield, Kentucky. A sort of quadrigals return! Ma and Pop are making quite a do of it. After a six month absence the six-month old quads come home to a new nursery where they are received by the rest of the family. A baker's dozen and one over, and they are all doing well thank you. No one would deny that mother's done well, no wonder she's proud and that goes for the old man too. Here are close ups of the quads who put the four in fourteen. Matine, Mildred, John and Beulah. Mum and Dad say they are the cutest kids in Kentucky.
