

BRITISH WARSHIPS IN U.S.A.

In the United States Naval Yard at Mare Island, California, is H.M.S. ORION. She becomes a regular hunting ground for cameramen and newshounds as she undergoes repairs in the American yard.

The British Cruiser LIVERPOOL damaged during the hostilities off Crete, is also in port for repairs, provisioning and other purposes. Its all part of the help President Roosevelt is extending to Britain in her sea war against Germany.

Everyone gladly poses for the photographers while waiting to have another crack at the Nazis.
