ALUMINIUM ROUND UP

Thousands of American kitchens are looking down in the dumps now that the nation-wide drive for pots and pans for salvage is in full swing and big pots bring even bigger pots to the petty party, At Rockingham Race Track. A lump of aluminium is the price of admission and racegoers queue up to pass their pan and/or pots. Pots from hotels, pans from restaurants. A perfect avalanche of alluring aluminium. Firemen give a hand in taking the givers of pots and pans to the central dump. Now it's up pots and scrap 'em.
