TURKEY ROUND UP.

NO, this is not a war story.... it's just a round-up of birds worth their weight in gold... or cigarettes. FarmGirls are busy preparing turkeys for "sombodys" Christmas dinners. You'd almost believe the birds themselves were looking forward to it.

Of course you'll go away now and wish for a rich aunt to leave you a fat legacy so that you can afford one. Turkeys, ready for roasting, will cost only four-shillings-and-two-pence a pound this year. Cheers from all concerned.
