CANADA'S SHIPBUILDING PROGRAMME..... EXCLUSIVE PICTURES.

Synchronising with our own warship weeks, come these pictures from Pathe's cameraman in Canada, of eight brand new Corvettes and Minesweepers launched during the greatest single christening ceremony ever held in the Dominion.

Far inland on the St.Laurence River and a thousand miles from the sea upon which they'll sail, they represent the magnificent efforts of a United Canada. An impressive climax to Quebec's War Weapons Drive.

We join the people of Canada in saluting these products of their ship-building yards. Night down the slipways in one day is nice going.
