PATHE GAZETTE A2 - 23.

WASTE PAPER TRAILER.

Newspapers and magazines, cartons and wrapping paper, public files and receipts, paper bags and cardboard, letters, packets, music, books. Paper is made from wood pulp, wood pulp comes from overseas. It means shipping space we can't afford, and merchant ships and seamen's lives. Save that paper, save that scrap. Paper scrap makes many things, things we need to win the war, anti-aircraft shell containers, carriers for bombs and shells, washers for mortar bombs, smoke bombs and verry lights. Boxes for cartridges, aero engine dust covers, cut-out targets, gun fuses, plugs for shells. Made from paper, made from scrap. Save that paper, save that scrap. Mobilize your scrap.
