

PATHE GAZETTE: 42/56.

DIPHTHERIA TRAILER

Last year, enemy bombs killed nearly 3,000 children. But every year 3,000 children die of diphtheria. Your child can be protected against diphtheria, you can get it immunised free. At these laboratories, toxoid is being made to protect every child in Britain. Toxoid to make your child safe from diphtheria. You wouldn't leave your child unprotected against bombs, why leave it unprotected against diphtheria. These children will be safe from diphtheria, they are being immunised. Give your child this protection. Beat diphtheria.
