WORLD'S RECORD WINNER

That's "Whirl Away" that is, isn't that so "Whirl Away". Trust a race horse to know its own name. He's just straining at the reins to get going in the Massachusettes Handicap. Because at the moment he's a few dollars short of the world's record winnings on the flat. He is a long-tailed, short-priced favourite. You can be sure he doesn't come to Suffolk Downs for nothing. Jockey George Woolfe just up and they're away. Strange thing is that Whirl Away is last off the mark. That must have given the punters a touch of heartburn. But he carries top weight and a hundred and thirty is a fight, and as a weight carrier, well wait and see. In the back stretch Whirl Away is still last, but unlike the proverbial cobbler he doesn't stick there. Up and up he comes and even up, watch his magnificent action as he overtakes on the outside, and now Whirl Away takes the lead, still thinking of those odd dollars he's just waiting his chance. Slow motion shows you the poetry of motion. It shows you how a highly trained temperamental race horse wins another forty five thousand dollars to his collection of four hundred and fifty thousand dollars. Whirl Away is heading for the first half million dollar mark. Will you make it Whirly, well he ought to know.
