~~Hi Brother~~

~~Hey brother, that's sabotage. Look what you've done. Say goodbye to that pair, that's the end of a good jacket to. Now let's start again. Give it a good brush, hang it up. Rub it in well, that's better. Here's another one, look at her ripping her stocking to pieces. Do it again, you heard me do it again. That's the way. Now here's another wrecker. You don't believe me, right I'll show you, that's what happens if you hang them up wet. Why don't you lay them out flat, move them into shape. If you're careless with your clothes you are robbing a soldier of his clothes, a pilot of his helmet. Let these machines operate full time on essentials. Worth it isn't it ?~~
