AIR ATTACK ON BOU ARADA (Tunisia)

A recent German attack on the Allied lines South of Mednes el Bab at a place called Bou Arada, brought J.U 88's out in force to harass British tanks advancing to meet the enemy armour. Cameras have concentrated on the dive bombers which came sweeping in during this lively encounter.

Attempts to silence the British Artillery lines drew a blank. Watch one of the Junkers with a dead pilot at the controls flutter down like a falling leaf.

The cameraman had a special interest in this plane. It's last bomb nearly got him.
