

PATHE GAZETTE: 4/11. (DUBLIN)

MASSED LAUNCHINGS

Americans are doing it by numbers now. Launching several ships at a time. And here's Mrs. Judson Keith presiding at the five of them. Five little water babies who will go out into a wet world within a minute of each other. Some go down the slips by the bows, others take a broad-side view of their new life. In the States today ships are being turned out as fast as tenants who don't pay their rent.
