GIRLS WILL BE BOYS

Girls at the University of New Hampshire are taking the same sort of physical training as the boys. The idea of a weaker sex is not encouraged and the girls are taught that they can be very feminine and very fit. A man-size obstacle race is just a walk over and a crawl under, the bouncing belles of New Hampshire, tough babies but not amazons. These are the kind of jumpers the modern girl makes, pearl and plain take second place to up and over. Skiing is the principle sport, see how quickly the novices become experts. Miss America 1943 - some babe!
